

Fibre Applicators and Tips for LASER Dentistry from the Original Manufacturer

Frank Optic Products provides specially-certified fibre applicators and fibre tips for laser systems in dentistry for endodontics, surgery and periodontology. Reliable fibre-optic laser products from well-engineered production guarantee economical and long-lasting use of the fibre applicators in dental practice.

Fibre applicators for diode-laser systems in dentistry

Fibre tips for diode-laser systems in dentistry

Fibre Tips

Fibre types:

- Fibre tip Ø 200 µm
- Fibre tip Ø 300 µm
- Fibre tip Ø 400 µm
- Fibre tip Ø 600 µm

Fibre-tip sets

Standard fibre-tip set SD10

1 set consisting of 10 fibre tips each of the same type (e.g. 5 units Type 200E)

Mixed set of fibre-tip MX10

1 set consists of 10 different fibre tips, e.g. 2 each of the following types:
 Ø 200 µm, Ø 300 µm, Ø 400 µm,
 Ø 600 µm, or customised combinations
 such as 3x Ø 200 µm, 2x Ø 300 µm,
 3x Ø 400 µm, 2x Ø 600 µm

Fibre Applicators for Endodontics, Surgery and Periodontology

Fibre-applicator starter set S7

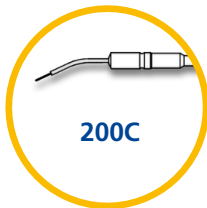

The set consists of 7 applicators, 1 each of types: 200E, 200C, 300C, 400C, 600C, 300P, 400P

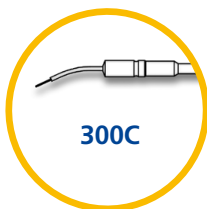

Fibre-applicator set ST5

Set consists of 5 applicators of the same type (e.g. 5 units of Type 200E)

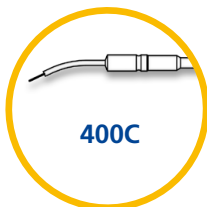

Type-C fibre applicators (surgery):

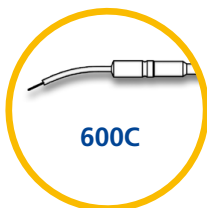

Type 200C applicator
Fibre: Ø 200 µm
Radius 25°

Type 300C applicator
Fibre: Ø 300 µm
Radius 25°

Type 400C applicator
Fibre: Ø 400 µm
Radius 25°

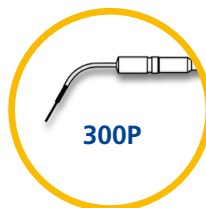

Type-600C applicator
Fibre: Ø 600 µm
Radius 25°

Type-E fibre applicators (endodontics):

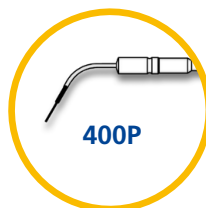

Type 200E applicator
Fibre: Ø 200 µm
Radius 90°

Type-P fibre applicators (periodontology):

Type 300P applicator
Fibre: Ø 300 µm
Radius 60°

Type 400P applicator
Fibre: Ø 400 µm
Radius 60°

All fibre applicators can be supplied in different customised purchase quantities.
